d) 60
e) None of these

Answer & Explanation

Note: The Information Provided here is only for reference. It May vary the Original.

9. **A job that can be completed by 2 men and 6 women in 10 days will be completed by 4 men and 12 women in how many days?**
   a) 2
   b) 3
   c) 4
   d) 5
   e) None of these

Answer & Explanation

10. **If 10 men can reap 40 hectares of a field in 5 days then how many hectares of field can 30 men reap in 10 days?**
    a) 180
    b) 200
    c) 240
    d) 280
    e) None of these

Answer & Explanation

1. **10 machines can wash 20 cars in 6 hours. In how many hours can 15 machines wash 40 cars?**
   A) 8
   B) 7
   C) 15
   D) 12
   E) 6

Note: The Information Provided here is only for reference. It May vary the Original.

Answer & Explanation

2. **To build a house, 5 men take 60 days working 8 hours each day. In how many days 2 such houses can be built by 8 men working 10 hours each day?**

A) 75
B) 50
C) 20
D) 60
E) None of these

Answer & Explanation

3. **2 men and 4 women can complete a job in 5 days. Also same job can be completed by 3 men and 8 women in 3 days. In how many days, twice the job can be completed by 3 men and 3 women?**

A) 4
B) 8
C) 10
D) 8.5
E) 13

Note: The Information Provided here is only for reference. It May vary the Original.

Answer & Explanation

4. **A job that can be completed by 2 men and 6 women in 10 days will be completed by 5 men and 15 women in how many days?**
   A) 2
   B) 3
   C) 5
   D) 4
   E) Cannot be determined

Answer & Explanation

5. **There is sufficient food for 40 men for a 15 days picnic. If after 6 days 4 men leave, how many more days can the remaining men intake food?**
   A) 8
   B) 5

Note: The Information Provided here is only for reference. It May vary the Original.

C) 10
D) 1
E) 3

Answer & Explanation

6. **A job is completed by 5 men or 7 women in 40 days, then in how many days thrice the job as previous will be completed by 5 men and 3 women?**

A) 27
B) 28
C) 38
D) 84
E) 90

Answer & Explanation

7. **10 women completed 2/7th of work in 18 days working 6 hours each day. After this 5 women left and 2 men joined. In how many days working same number of hours, the remaining work will get completed if 1 man is equal to 2 women?**

Note: The Information Provided here is only for reference. It May vary the Original.

A) 50
B) 55
C) 70
D) 58
E) 62

Answer & Explanation

8. **20 carpets are to weave by 40 women in 50 days working 8 hours per day. After 20 days, order of 6 more carpets came. To complete the total work on time, how many more hours per day they will have to work?**

A) 2
B) 4
C) 5
D) 10
E) 12

Answer & Explanation

Note: The Information Provided here is only for reference. It May vary the Original.

9. **A work is to completed. 10 men started the work and completed 1/6th of the work in 5 days working 3 hrs each day. 2 more men are employed. In how many days will the total number of men complete four times work as before working 5 hours each day?**

A) 12
B) 18
C) 10
D) 20
E) 15

Answer & Explanation

10. **2 men or 4 women or 5 children can complete a piece of work in 38 days. In how many days will 1 man, 1 woman and 1 child complete the same work?**

A) 20
B) 40
C) 36
D) 42
E) None of these

Answer & Explanation

1. **50 people went on picnic along with taking food for 10 days. After 4 days 10 people left the picnic. For how many days the food will last now?**

A) 7 1/2
B) 15 1/2

Note: The Information Provided here is only for reference. It May vary the Original.

C) 8
D) 6
E) 6 1/2

Answer & Explanation

2. **50 people can do 1/4th of work in 20 days working 4 hrs each day. How many people need to be joined in order to complete the work in 40 days working same number of hours as before?**
A) 75
B) 50
C) 20
D) 25
E) None of these

Answer & Explanation

3. **2 men and 3 women are employed to type 100 pages on computer. They completed the work in 5 hours. If one man can do twice work in one hour as compared to one woman, find the number of hours to type 200 pages by 10 women.**
A) 12
B) 7

Note: The Information Provided here is only for reference. It May vary the Original.

C) 6
D) 8.5
E) 10

Answer & Explanation

4. **Fruits were purchased for Rs 350. 9 boys ate 3/5th of them in 2 hours. 6 boys feel their stomach as full so do not eat further. In how many hours the remaining fruits will get finished by remaining boys?**

A) 2 hours
B) 3 hours
C) 5 hours
D) 4 hours
E) 6 hours

Answer & Explanation

Note: The Information Provided here is only for reference. It May vary the Original.

5. **100 men were to complete a piece of work in 20 days. After they worked for 10 days, 60 more men were employed to complete the work on time. If additional men were not employed, then how many days behind schedule the work would be finished?**

A) 12
B) 8
C) 10
D) 6
E) None of these

Answer & Explanation

6. **If 2 men or 5 women can complete a work in 15 days, then in how many days 4 men and 5 women will complete the same work?**

A) 7
B) 12
C) 8
D) 5
E) 10

Answer & Explanation

Note: The Information Provided here is only for reference. It May vary the Original.

7. **To do a certain work in 9 days, some men were employed. All came on the first day, but after seeing that there is too much labor for the work, 6 men left the work after 1 day. If the work is now completed in 6 days more than the scheduled time, how many men were initially employed?**

A) 14

B) 15

C) 20

D) 18

E) 12

Answer & Explanation

8. **A pipe filled 4/5th of a cistern in 10 minutes. How much more time will it take to fill the rest?**

A) 2 minutes

B) 2.5 minutes

C) 3 minutes

D) 3.5 minutes

E) 2 minutes

Answer & Explanation

Note: The Information Provided here is only for reference. It May vary the Original.

9. **30 women complete the 2/5th work in 40 days working 6 hours each day. If 10 women leave, in how many days the remaining work will get completed if now they work for 10 hours each day?**

A) 62

B) 58

C) 54

D) 70

E) 45

Answer & Explanation

10. **In a refugee camp, 20 people are provided food which was given for 5 days. 10 people left this group after 2 days, and it was found that the remaining food lasted for 3 days for remaining people. If the people would not have left, how many days the food would have been lasted?**

A) 4 days
